Instructions To Bidders · Please Read Before Bidding

TERMS OF SALE

1. All bids are to be per Lot; no Lots will be broken. In the event of identical bids on the same Lot, the Lot will be awarded to the first bid received. In the event of a dispute during floor bidding the auctioneer may at his discretion immediately put the Lot up for sale again.

2. All sales are strictly for cash in U.S. funds. Invoices must be paid within 5 days of receipt. Lots delivered in California are subject to state sales tax unless a resale permit is on file with us. Shipping, handling, and insurance charges will be added for Lots delivered by mail. A 2½% service charge will be added to all Master Charge sales, 3% for Visa, and 3.25% for American Express charges.

3. Bidders not known to us must furnish satisfactory references and/or a deposit equal to 25% of the bids submitted (which will be applied to purchases; any difference will be billed; any overage will be refunded.) We reserve the right to obtain payment in full before delivery of the Lots. Title does not pass until Lots are paid for in full.

4. No "buy" or unlimited bids will be accepted. No bids will be accepted from minors. The auctioneer and/or the catalogue reserves the right to refuse any bid which, in our opinion, is not made in good faith or does not qualify credit-wise.

5. All items are guaranteed genuine.

6. We cannot be responsible for your errors in bidding, so check your bid sheet carefully. Please bid in even dollar amounts. All bids not in whole dollar figures will be rounded off to the lower whole dollar amount.

7. Auction sales are not approval sales. Any Lot may be examined before bidding. No Lot may be returned by a mail bidder without our permission in writing. Requests to return coins must be made in writing within 3 days of receipt of the coins.

8. No Lots may be returned for any reason by floor buyers (including those acting as agents for others). All floor sales are final.

9. Any claims involving errors in the catalogue or for other reasons must be made within 3 days of receipt of the coins. Bowers and Ruddy Galleries acts as agent for the various consignors. For this reason, no claims of any kind can be considered after the settlements have been made with the consignors. Any dispute after the settlement date is strictly between the bidder and the consignor, without involvement or responsibility of Bowers and Ruddy Galleries and/or the catalogues. Bowers and Ruddy Galleries reserves the right to include its own material in any auction. In the event of a typographical error or attribution error or other error, the catalogue reserves the right to withdraw any item from sale, or if the error is discovered at a later date, to refund the buyer's money without further obligation.

10. Printed prices, catalogue values, etc. are only estimates. Higher or lower valuations may prevail. In the United States series estimates are given only on particularly expensive and/or unusual Lots. We will gladly answer any other questions you might have.

11. Your submitting of bids in our sale constitutes your acceptance of the foregoing terms.

NOTICE OF EXHIBITION

The Fulton Collection lots will be available for viewing Thursday May 25 and Friday May 26 plus Tuesday May 30 to Friday June 2nd at the offices of Bowers and Ruddy Galleries, 6922 Hollywood Boulevard, Los Angeles, California 90028. Hours of examination will be from 10:00 a.m. to 4:00 p.m. Hours will be strictly observed as coins are kept in bank vaults and we must abide by bank opening and closing hours.

HELPFUL SUGGESTION: To avoid congestion and to permit more leisurely viewing it is strongly recommended that Los Angeles area clients view the lots early. The last two or three days of viewing are apt to be crowded with out-of-town clients. Thank you.

INSTRUCTIONS FOR MAIL BIDDERS

Deadline for receipt of mail bids: Noon, Thursday, June 1, 1978. We recommend that you mail your bid sheet at least ten days prior to this date.

Be sure to read the **TERMS OF SALE** as they apply to mail bidders as well as floor bidders. Also read **HELPFUL MAIL BIDDING SUGGESTIONS**.

A bid sheet has been provided with this catalogue. Double check your bids before sending them, for we cannot be responsible for any errors on your part. Please submit your bids in U.S. dollars. Be sure to sign your bid sheet. Mail your bids early! Deadline for receipt of mail bids is Thursday, June 1, 1978.

If you bid by mail we will act as your agent and will buy for you under your bid if the next highest bid permits. No commission will be charged for handling your mail bids. Example: If you bid \$120 on a lot and the next highest bid is \$100, then we will buy the lot for you at a nominal advance; approximately \$105 in this example. If you bid \$120 and the next highest bid is \$115, then you will be charged \$120, the full amount of your bid.

In the case of tie bids, the earliest bid received is awarded the lot. Please check our catalogue carefully. This outstanding auction sale offers you a truly significant opportunity to acquire some choice and lovely pieces.

PRICES REALIZED LISTS ARE PUBLISHED 60 DAYS AFTER THE AUCTION

THE FULTON COLLECTION

June 5~7, 1978

Bowers and Ruddy

 Galleries 

Welcome to the Sale

From the Rocky Mountain West comes the Fulton Collection, a father and son collection which spans two generations of numismatic activity. Added to this illustrious grouping are consignments from several other prominent numismatists, including Philip J. More and Frank Nercita.

The result is an auction which is diverse in its content and scope. You'll find United States coins and paper money, ancient issues, and coins of the world—literally something for every taste.

The United States section begins the catalogue. The date collector as well as the type set specialist will find many items of interest. Cents, 2c and 3c pieces, bust-type and Liberty seated silver, Barber issues, and 20th century coins are all represented as are American gold pieces.

Silver dollars, always a popular series, are highlighted by a number of scarcities and rarities (the 1851 original dollar being a prime example) as well as one of the most extensive offerings of popular Morgan dollars we've ever presented. In this latter category you'll find many prooflike issues of exceptional merit, the result of our consignor's having spent untold time searching through many offerings.

United States paper money includes an excellent selection of small size notes replete with Gem Uncirculated examples of \$1 silver certificates 1928-C, D, and E, 1928-B \$2 legal tender, and gold certificates \$10 to \$100. There are also some really nice fractional currency and fractional specimen notes as well as a small but nice group of large size pieces. Rounding out the United States section is an extensive listing of Franklin Mint and other modern medals, large lots of silver ingots and medals, recent political issues, collections on various themes, and sculptures in silver and pewter.

Ancient coins include a lovely and rare gold solidus of Constantius Gallus c.351-354 A.D. and a nice selection of Greek silver, particularly extensive in the issues of Parthia and Bactria.

World coins are likewise well represented and provide the arena for offerings from many different countries and principalities. Over 200 lots of German talers will attract many overseas bidders as well as specialists within our own country. Crowns of Austria and China are of particular interest as well.

Fifteen extremely rare Japanese patterns of the Meiji, Taisho, and Showa emperors will attract international attention. Other issues of Europe, Asia, Latin America and other districts merit your attention as well.

Among gold coins of the world many eyes will be focused on the 1970 gold set of Korea, the complete 1887 Proof set of Great Britain, and other desirable issues.

Auctions, long a part of our service (our first sale was the Claude R. Collier Collection in 1956), are ever increasing in popularity as a way to buy coins. Indeed, auction is a main way to sell in many other fields as well, including the stock market, art, and antiques. Thinking of selling your collection? Write or call (use our toll-free number: 800 421-4224) Bob Korver, manager of our Auction Department, and he will give you complete information. Available free for the asking is a chatty little booklet, *How to Sell Your Coins for the Best Price*, which tells you "all you wanted to know about auctions but didn't know whom to ask."

If you're an old timer with our auctions you'll find the Fulton Collection sale offers many interesting opportunities. If you're new we invite you to use the Fulton Collection catalogue as your first bidding experience. Bob Korver's page entitled "Helpful Mail Bidding Instructions" will answer your questions (see next page). Bidding by mail is how most of our clients will participate—it's easy and enjoyable. And then there's the excitement of winning some special coins in competition. Try it!

You're invited to attend the sale in person if your schedule permits. Make June in Los Angeles a holiday for your entire family. The scenic and tourist attractions here are unrivalled.

The Fulton Collection Sale is about to begin. We wish you the best of luck and success. Each of the thirty-seven members of our staff thanks you for your interest, enthusiasm, and participation.

Helpful Mail Bidding Suggestions

by Bob Korver, Manager, Auction Department

Bidding in this sale can be an interesting, enjoyable, and numismatically rewarding experience. If you're an old-time bidder from us you may find some of my comments will increase your bidding success. If this is your first sale then I particularly recommend that you read my commentary. I've numbered the paragraphs for reference in the event that you wish to ask further questions about any aspect. Have a question? You get *personal service* at Bowers and Ruddy Galleries. Write or call and I or a member of our Auction Department staff will gladly answer it.

1. Read the Terms of Sale in the front of the catalogue. These terms define your obligation when you submit a bid sheet.

2. Mail your bid sheet as early as possible. This is particularly important if you're a new bidder, for it takes us time to check your references. Also, this assures that your bid sheet will be received before the sale. A bid sheet mailed a few days before the sale might not reach us until a week later—at which time the coins have all been sold to others!

3. I've found it best to use a *work sheet* to compile bids. In this way you can check back and forth throughout the catalogue, make changes and revisions, and so on. Then when you've decided on your final bids enter them on the bid sheet. Try your best to keep the bid sheet neat and clearly understandable, listing the lots in order.

4. If you are a new bidder, send along references and a 25% deposit.

5. Be prepared to pay in full for all lots for which your bids are successful. Don't bid more than you want to pay! Review your financial circumstances carefully before bidding. If you are awarded lots you are legally bound to pay for them.

6. Please keep current price levels in mind when bidding. While high and low prices sometimes occur, most items sell within market ranges. If a popular coin sells for \$500 on the retail market, chances are not good that a bid of, say, less than \$400 will win it. On the other hand, chances are excellent that a bid in the \$500 to \$600 range will be a winner. There is no harm in bargain hunting, but as your time is valuable (and so is ours) it is most productive if you keep current values in mind while bidding!

7. Auction invoices are due upon receipt unless prior credit arrangements have been made with us.

8. You may pay for your auction lots with Visa or Master Charge, but a small percentage

increase will be added to your invoice to cover our charges in this regard.

9. Be sure to sign your bid sheet.

10. Ink is best for writing bids. Pencil tends to blur.

11. If bid changes are necessary, do not over-write any figures. Instead, cross them out completely and re-enter the bids.

12. Put your telephone number on the bid sheet. In this way we can call you if there is any question about a bid.

13. Submit your bids in even dollar amounts. Cents and fractional dollar amounts will be ignored.

14. Check your bid sheet carefully. You will be responsible for any bids on wrong lots or for the wrong amounts. Please, please be careful!

15. Don't forget to take advantage, if you wish, of the optional 10% or 20% increase to really help your chances of being a successful bidder.

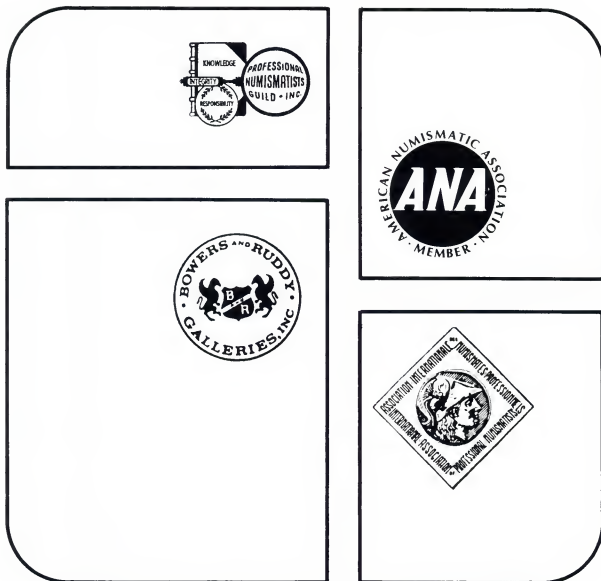

16. If you wish to limit your total expenditure, please write MAXIMUM EXPENDITURE \$—— and the amount at the top of your bid sheet. You can then submit bids for amounts up to *four times* the amount of the maximum expenditure. This is a *personal service* and a B&R customer representative will personally attend to your bid sheet by bidding from the auction floor, buying lots for your account until your authorized expenditure is reached. Due to the bookkeeping involved, this service is offered only to bidders with maximum expenditures of \$1000 or more. MAXIMUM EXPENDITURE and "ONE LOT ONLY" bidding cannot be combined.

17. Up to five lots may be grouped with brackets for a "ONE LOT ONLY" purchase; if you wish to purchase only one example of a coin of which several examples appear in the sale. Such lots should be bracketed with the notation "ONE LOT ONLY" appearing.

18. Lots may be inspected by mail prior to the auction. Please write or call for further information.

19. Our Auction Department is here to serve your needs. We really appreciate your interest and business and will do anything we can to make auction bidding by mail more enjoyable for you. We look forward to receiving your bids.

FIRST SESSION

Monday Evening, June 5. 7:00 p.m. Sharp. Lots 1-752

U.S. Colonial Coins

- 1 1670 French Colonies 5 sols. A scarce and very early American colonial issue. Described on page 28 of the 1978 edition of the *Guide Book*. Although the mintage was fairly sizable, most were melted shortly after they appeared in circulation in the colonies. Struck at Paris. Fine-12 and bent in the manner of a Massachusetts witch piece (therefore possibly of interest to collectors of such items).
- 2 Three collectors' coppers: (1) 1773 Virginia halfpenny. With period. VG-8; (2) 1783 Nova Constellatio. Pointed rays. Fair-2; (3) (1783) Washington copper. Double head. VG-8. Good color on all. (Total: 3 pieces)
- 3 Connecticut: (1) 1785 Bust right. VG-8; (2) 1787 Bust left. M-33.15-n.l. VG-8. Both somewhat porous. (Total: 2 pieces)
- 4 Three states pieces: (1) 1786 New Jersey. AG-3; (2) 1787 Connecticut. Mailed bust left. Good-4; (3) 1794 Talbot Allum & Lee with New York. VG-8. (Total: 3 pieces)
- 5 1787 Massachusetts cent. Arrows in left talon. VF-20 with multiple (but not deep) scratches. Medium brown.
- 6 1783 Washington UNITY STATES cent. VF-30, choice. Mottled color.
- 7 1793 Washington ship halfpenny. VF-20.
- 8 1795 Washington grate token. Large buttons. Reeded edge. EF-45, choice. Pleasing medium brown surfaces.

U.S. Half Cents

See Color Photo

- 9 1793 First year of issue, and very distinctive. Quite scarce in any grade! VF-20 with some weakness of strike at AMERICA in the reverse legend. Slightly porous. Some marks near the obverse rim. Still, medium brown and better than most.
- 10 1794 Liberty cap. Second year of issue of this denomination. VF-20. Dark brown fields with lighter (highlighted) devices. Very bold bust.
- 11 1804 Plain 4, stemless. EF-45, choice. Light brown.
- 12 1834 AU-50. Sharply struck. Light brown with tinges of mint red.

- 13 1835 MS-60, brown Uncirculated with tinges of mint red. Glossy surfaces.
- 14 1851 MS-60, brown Uncirculated. Light brown and very pleasant. Good for a type set.
- 15 1853 MS-63, brown Uncirculated. Most pleasing. This date is virtually nonexistent in mint red.
- 16 1853 AU-55, choice. Sharply struck and light brown.
- 17 1853 VF-20, cleaned.
- 18 1854 MS-63, brown Uncirculated with iridescence. A sharply struck and most handsome coin.
- 19 1854 MS-60, glossy brown Uncirculated. Sharp strike.

U.S. Large Cents

Excellent 1793 Chain AMERICA Cent

See Color Photo

- 20 1793 Chain AMERICA. S-3. Exceptionally well centered on a rather large planchet. Dark brown surfaces but VF-30, choice, and with some claims to EF. Traditionally an issue struck in shallow relief. In all, an exceptional piece worth a good bid.

- 21 1793 Wreath. Lettered edge. S-11c. VF-20. Granular fields and dark brown but still attractive. Coins such as this have a "character" all their own which makes them individually identifiable.

- 22 1794 VF-30, choice. Very dark brown and finely porous. An attractive specimen with "character" (see our note above) which would fit nicely into an advanced type or date collection.

Extraordinary 1797 "Nichols Find" Cent

See Color Photo

- 23 1797 3rd reverse, stems. An exceptionally fine piece which must trace its origin to the Goodhue-Nichols Find. MS-65, glossy brown Uncirculated. Superb, smooth, nearly prooflike surfaces—are found on almost all of the cents from this hoard, for the blanks were manufactured in England at the Soho Mint, which is famous for its skilled workmanship.

Note: The Goodhue-Nichols (or Nichols, as it is most widely known) hoard was dispersed during the 1850s and is the main source of mint state cents dated 1796 and 1797, although of course isolated specimens must have come from other persons' holdings. Most such cents, though, can be safely attributed to this original bag of cents.

- 24 A cent miscellany for the beginning collector (or cent hoarder): 1797, 1812, 1829, 1847, 1849, 1851 and 1856 large cent. Average grade is Good-4. Some nicks and marks. (Total: 7 pieces)

- 25 1798/7 3rd reverse, 1st hair. Fine-12. A couple of light edge bumps but attractive overall. Grayish brown.

- 26 1798 3rd reverse, 1st hair. EF-40. Light brown. Nicely centered. No real problems. A good coin for a select set.

- 27 1802 T cut over Y. S-234. Fine-12. Nice surfaces for the grade.

- 28 1802 Stemless. Fine-12. Dark brown and rather pleasing for this variety.

- 29 1803 Small date, large fraction. EF-45, choice. Well struck. Dark brown.

- 30 Type group: (1) 1805 VF-20, corrosion on reverse; (2) 1813 VF-30, choice. Black and pebbly surfaces, as usually seen on this date; (3) 1839 EF-40; (4) 1853 EF-40 but skillfully whizzed. Looks BU at a glance. (Total: 4 pieces)

- 31 1817 MS-60, brown Uncirculated. Slightly mottled color. Probably from the Randall Hoard, as are most mint state cents of the years 1816 to 1820.

- 32 1851 AU-55, choice. Beautiful surfaces! Deep reddish brown. A premium coin for the cent fancier.

- 33 1852 MS-60, brown Uncirculated. Glossy light brown color. Another lovely coin which is kept from a higher grade simply for its lack of mint red.

- 34 1853 MS-63, deep red Uncirculated. Another very attractive cent for the date or type collector.

- 35 1853 MS-63, brown Uncirculated. Suggestions of mint red.

- 36 1854 MS-60, brown Uncirculated. Light brown with some mottled toning.

- 37 1854 AU-55, choice.

- 38 1855 Upright 5. MS-65, red and brown Uncirculated. Full cartwheel lustre. A very lovely coin.

- 39 1856 Upright 5. MS-63, Brilliant Uncirculated. A beautiful coin blessed with much golden red color.

- 40 1856 Upright 5. MS-60, red and brown Uncirculated.

- 41 1856 Slanting 5. AU-55, choice.

U.S. Small Cents

Attractive 1856 Flying Eagle Cent

See Color Photo

- 42 1856 Flying eagle. MS-60, Brilliant Uncirculated. Perfect, sharp strike. Golden tan colored surfaces. A handsome example of this, the most famous of all small cents.

- 43 1857 Flying eagle. MS-63, Brilliant Uncirculated. Light, ginger color. A fine coin for an advanced type or cent set.

- 44 1857 Flying eagle. MS-60, Brilliant Uncirculated. Pale iridescent surfaces, adding to its attractiveness. Very pretty!

- 45 1857 Flying eagle. AU-55, choice. Light golden color.

- 46 Early small cents: (1) 1857 Flying eagle. Good-4; (2) 1858 Large letters. Good-4; (3) 1859 One-year type. EF-40, cleaned. (Total: 3 pieces)

- 47 1858 Flying eagle. Large letters variety. AU-55, choice. Iridescent surfaces make this an attractive piece.

- 48 1858 Flying eagle. Small letters. AU-50. Light gold. Quite desirable!

- 49 1859 One-year copper-nickel type coin. Only Indian cent (other than patterns) without a shield on the reverse. MS-60, Brilliant Uncirculated. A desirable coin.

- 50 1859 As above. AU-55, choice. Bright golden toning.

- 51 1860 MS-60, Brilliant Uncirculated. Real sharp strike.

- 52 1861 AU-55, choice. Long considered the scarcest of the copper-nickel cents of 1860-1864.

- 53 Trio of different copper-nickel cents: 1862, 1863, and 1864. All are AU-50. Good color and surfaces. A nice group for the collector! (Total: 3 pieces)

- 54 1864 Bronze. MS-60, red and brown Uncirculated. Nice strike.

- 55 1864 Bronze. AU-55, choice. Prooflike.

- 56 1864-L MS-60, red and brown Uncirculated. Quite attractive overall.

Note: In addition to the prominent capital L on the Indian's ribbon, this scarce variety of 1864 cent (first of the long line of Indian cents all having Longacre's initial in this location) has the date well separated from the tip of the Indian's bust. On the 1864 bronze cent without the L, the top serif of the first 1 in the date and the point of the bust nearly touch.

- 57 1865 AU-55, choice. Virtually full mint bloom.
58 1866 AU-55, choice. Brown and light gold.

- 59 1867 Proof-65, brilliant. A deluxe specimen of this fairly early Proof Indian cent.
60 1868 MS-63, Brilliant Uncirculated.
61 1869 MS-63, red and brown Uncirculated.
62 1869 Recut 9 variety (often mistaken for the so-called 1869/8). AU-55, choice. Almost fully lustrous.
63 1870 MS-65, Brilliant Uncirculated. A lovely coin (scarce in this grade!) with attractive iridescence.
64 1871 MS-65, red and brown Uncirculated. About 60% of the mint red remains. A very scarce date (close to the 1877 in this condition)—especially so fine!

- 65 1872 MS-63, Brilliant Uncirculated.
66 1873 Proof-60, brown. Great for a type set!
67 1873 MS-63, Brilliant Uncirculated. Another mighty attractive Indian cent!
68 Nice set of late 1870s cents for the date collector: (1) 1874 AU-50, lovely brown surfaces; (2) 1875 AU-50 and still lustrous; (3) 1876 EF-40, light gold. (Total: 3 pieces)

See Color Photo

- 69 1877 Traditionally considered the rarest of all Indian head cents. Certainly this date is the last obtained by most collectors. Most often found well circulated (for 1877 was a time of drought and financial problems in America—as were the following ten years or so, accounting for the circulated state of most coins of this period). Proof-60, toned to a reddish brown. Light spots here and there—most of them on the reverse.
70 1878 Proof-60 with the brilliance subdued to a golden color.

- 71 High-grade Indian cents—a good trading lot: (1) 1879 Proof-60, toned, fingerprint; (2) 1880 Proof-60, a few spots; (3) 1882 AU-50; (4) 1883 Proof-55, toned; (5) 1886 Proof-60, toned,

- 81 1903 MS-65, Brilliant Uncirculated. Golden iridescence. A beauty!

- 82 1904 Error: struck 10% off-center. VF-20.

- 83 MS-63 pair: 1905 and 1908. Both are attractive BUs. (Total: 2 pieces)

U.S. Two-Cent Pieces

- 109 1864 Large motto. MS-65, red and brown. Lovely, clean surfaces. Will make an attractive addition to a quality type set.

- 110 1865 MS-63, Brilliant Uncirculated.
- 111 1865 MS-63, red and brown Uncirculated.
- 112 1869 AU-50, cleaned.
- 113 1871 Proof-63, brilliant. An elusive coin.

U.S. Nickel Three-Cent Pieces

- 114 1865 AU-50.

- 115 1883 MS-67, Brilliant Uncirculated. A romantic little coin in a grade that rarely surfaces. This is definitely one of the nicest nickel three-cent pieces in the sale!

- 116 1887/6 Proof-65, brilliant. Frosted devices and deep mirror fields make a striking impression! The overdate feature is bold.
- 117 1888 Proof-63, brilliant. Tiny lintmark (as struck), but this doesn't really detract from the coin.
- 118 1888 MS-65, Brilliant Uncirculated.

U.S. Silver Three-Cent Pieces

- 119 1851 AU-55, choice.
- 120 1856 MS-60, Brilliant Uncirculated. Exceptional strike for a Type 2 three-center. Only a few of the reverse stars are flat. The obverse is boldly defined.
- 121 1861 EF-45, choice.

- 123 1872 MS-67, Brilliant Uncirculated. Very, very rare date in any grade (only 1,000 business strikes and 950 proofs were struck). Especially rare in mint state as most business strikings left the country shortly after being minted. They circulated in Canada and South American countries!

U.S. Nickel Five-Cent Pieces

- 124 1866 Rays shield nickel. EF-45, choice. Boldly recut date — one of the most detailed doublings to be found on an American coin!

- 125 1867 Rays. MS-65, Brilliant Uncirculated. Well struck and without the usual die breaks. Exceptional type coin or perfect for your investment portfolio.

Note: American coins from the 1860s and 1870s that had nickel in their composition caused the Philadelphia Mint untold hours of grief. Nickel is tough on dies — they wore out quickly, or shattered suddenly. To find a “with rays” shield nickel in such unimpaired condition is a true “find”!

- 126 1867 Rays. MS-63, Brilliant Uncirculated. Well struck. A beauty!
- 127 Trio of 19th century five-cent pieces. (1) 1867 Rays shield nickel. AU-50, cleaned; (2-3) 1883 Liberty nickels, no “CENTS” variety. Two pieces, one being MS-63, BU and the other AU-55, choice. (Total: 3 pieces)

- 128 1871 Proof-63, brilliant. A key date in the shield nickel series. This nice coin traces its pedigree back to our Austin Collection sale.

- 129 1883 Shield. Proof-63, brilliant. A few insignificant edge nicks are visible, but these don't hurt the coin at all. From our Fairfield Collection sale.

MS-65, BU; (10) 1938-D Buffalo. MS-63, BU; (11) 1950-D MS-65, BU. (Total: 11 pieces)

- 133 1892 MS-60, Brilliant Uncirculated.
- 134 1899 MS-65, Brilliant Uncirculated. Full corn ear on reverse (a diagnostic area of often-seen weak striking).
- 135 1909 Proof-63, brilliant.

- 140 Short set of Buffalo nickels. All dates and mints from 1934 to 1938 (no 3-leg or D/S varieties). All grade a quality MS-65, Brilliant Uncirculated. And better still, all are above average strikes. A very nice set housed in plastic holder. (Total: 12 pieces)

U.S. Half Dimes

- 154 1795 Flowing hair half dime. Valentine-4a. VF-30, choice. Nicely struck and without impairments. So few coins of this era are around today, it's a wonder that one as nice as this survived.

- 155 1796 LIBERTY half dime. V-1. EF-40. A few insignificant marks. Popular design incorporating the draped bust of Miss Liberty with small eagle reverse. An underrated type coin.

- 156 1805 Heraldic eagle design. VF-30, choice. Characteristic weak areas on the reverse (the thinness of the half dimes, coupled with this draped bust—heraldic eagle design elicited struck coins with weak striking). Still well above average for a heraldic eagle half dime. These often come impaired, bent or holed!

- 157 1829 AU-55, choice.

- 158 1833 MS-63. Brilliant Uncirculated. A delightful example.

- 159 1837 Liberty seated. No stars around. AU-55, choice. Just a stone's throw away from full mint state. Exceptionally nice fields.

- 160 1838 No drapery type. AU-55, choice. A hint of golden toning. Fully as nice as the previous 1837.

- 161 1854 Arrows at date. A short-lived (3 years) type coin. One of the best performers over the past two or three decades! MS-63, Brilliant Uncirculated.

- 162 1854-O Arrows. AU-55, choice.

- 163 1858 MS-65, Brilliant Uncirculated and even a bit prooflike! A beauty.

- 164 1866 Proof-63, beautiful sea green toning. One of the very low mintage half dime issues from Philadelphia in the 60s.

- 165 1867 MS-63, Brilliant Uncirculated. Struck from clashed dies (as are nearly all of the few extant business strikes for 1867). Always a popular year. Mintage for 1867? Just 8,625!

- 166 1871 Proof-60, brilliant. Unfortunately, the coin is slightly bent.

- 167 1872-S Mintmark below wreath. MS-65, Brilliant Uncirculated. Delicate toning.

- 168 1872-S Mintmark within wreath. MS-65, Brilliant Uncirculated. Another lovely coin!

U.S. Dimes

- 169 1807 Bust dime, heraldic eagle reverse type coin. Obverse is VF-20. Reverse Fine-12. (1807 is often found with the reverse weaker than the obverse — this is diagnostic).

Exceptional 1820 Bust Dime

See Color Photo

- 170 1820 MS-65, Brilliant Uncirculated. Attractive golden toning here and there.

Early dimes performed their purpose — they circulated. It isn't too often that a coin as lovely as this 1820 escaped the clutches of a change-hungry antebellum America.

- 171 1827 AU-50. Excellent type coin.

- 172 1828 Small date (new dies with collar). EF-45, choice. A rare coin that isn't too much appreciated yet.

Lovely 1837 No Stars Dime

See Color Photo

- 173 1837 Liberty seated, no stars. Popular first-year of type. MS-60, Brilliant Uncirculated.

Note: Christian Gobrecht, famous for his silver dollar patterns, redesigned the other silver coins in 1837. The cameo-effect of the starless dime is something to behold. Evidently, at the time, government officials thought the obverse too plain and subsequently added stars. The starless field was used only for 1837 and New Orleans dimes of 1838. These latter are considerably scarcer. As an investment the 1837 and 1838-O issues of this design have done very well in the past.

- 174 1838 No drapery. AU-55, choice.

- 175 1854 Arrows at date. MS-63, Brilliant Uncirculated. Another of these important short-lived type coins. Past history has shown that collector demand for one, two or three-year type coins has driven prices up much more readily than the more common dates. This lovely coin was last placed upon the auction block in our Herstal Collection sale.

- 176 1858-O AU-55, choice.

- 177 1864 Rare business striking! MS-63, Brilliant Uncirculated. Prooflike fields. All of the Philadelphia Mint business strike dimes of the middle-1860s are rare. For this very reason, they continue to command collector and investor attention.

- 178 1873 Arrows at date. AU-55, choice.

- 179 1873-CC Arrows. Key date. Fine-12. Nice smooth surfaces. No granularity as is usually found on 1873-CC (quite unusual!!)

- 180 1874 Arrows. MS-63, Brilliant Uncirculated. Two-year type coin.

- 181 1876-S MS-65, Brilliant Uncirculated. A beauty.

- 182 1877-CC MS-60, Brilliant Uncirculated.

- 183 1877-CC AU-55, choice.

- 184 1887-S MS-63, Brilliant Uncirculated.

- 185 1898 Barber dime. Proof-65, brilliant. "A blazer!" as one of our good customers likes to describe coins such such as this.

- 186 1898-S MS-60, Brilliant Uncirculated. Cleaned.

- 187 1908 AU-50.

- 188 1914 Proof-65, brilliant. Rarest proof Barber dime — and an exceptional one at that!

- 189 1916-S Barber. MS-63, Brilliant Uncirculated.

- 190 Miscellaneous Mercury dimes. (1) 1916 AU-50; (2) 1923 MS-63, BU, F.B.; (3) 1924-S EF-40, cleaned; (4) 1934-D MS-60, BU, lightly cleaned; (5) 1935 MS-60, BU; (6) 1936-S MS-65, BU, F.B.; (7) 1937-D AU-50; (8) 1937-S MS-60, BU; (9) 1938-D AU-50; (10) 1938-S AU-50; (11) 1939-D MS-65, BU, F.B.; (12) 1939-S AU-55, choice; (13) 1940-S MS-67, BU, F.B. (Total: 13 pieces)

- 191 1916-S Mercury. MS-65, BU. Nearly full bands.

- 192 1930-S MS-65, Brilliant Uncirculated. Full bands. One of the scarcer Mercurys.

- 193 1931-S MS-60, Brilliant Uncirculated.

- 194 Group of Mercury dimes grading MS-63 to MS-65, Brilliant Uncirculated (four have full bands). Included are 1935-S, 1936-D, 1940-P-D-S, 1941-P-D-S, 1942-P-D-S, 1943-P-D-S, 1944-P-D-S, 1945-P-D-S. (Total: 20 pieces)

- 195 1936-S MS-65, Brilliant Uncirculated. Full bands.

- 196 1937-P-D-S set of three dimes. All grade attractive MS-65, Brilliant Uncirculated. (Total: 3 pieces)

- 197 1938-P-D-S and 1939-P-D-S dimes. MS-65, Brilliant Uncirculated. The 1938-S has full bands. (Total: 6 pieces)

- 198 Complete run of Mercury dimes from 1941 to 1945-S, plus a 1945-S micro-S. No overdates. MS-60 to MS-65, BU. Average MS-63, BU. (Total: 16 pieces)

- 199 1942/1-D EF-45, choice.

- 200 1942 Proof-63, brilliant.

- 203 Roosevelt dimes. Complete set 1946 to 1964. MS-63 to MS-65, BU. (Total: 47 pieces)

- 204 Roosevelt set 1946 to 1964. As last, MS-63 to MS-65, BU coins. (Total: 47 pieces)

- 205 Set of silver proof Roosevelt dimes: 1950 to 1964 complete. All are Proof-65, brilliant coins (the 1953 and 1955 are frosted). Housed in custom plastic holder. (Total: 15 pieces)

206 Rolls of Roosevelt dimes. Coins grade MS-60 to MS-65, BU. (1) 1950-D; (2) 1956-D; (3) 1958. (Total: 3 rolls=150 coins)

207 Group of recent Proof-65, brilliant Roosevelt dimes: three pieces of each date — 1968-S, 1969-S, 1970-S, 1971-S, 1972-S. (Total: 15 pieces)

U.S. Twenty-Cent Pieces

208 1875-CC MS-60, Brilliant Uncirculated. Average strike for this Carson City coin.

See Color Photo

209 1875-S MS-65, Brilliant Uncirculated. Well struck and beautiful. Much scarcer than its San Francisco Mint counterpart, this Philadelphia coin was struck only to the tune of 39,700 pieces.

210 1875-S MS-63, Brilliant Uncirculated. A good type coin.

211 1875-S MS-60, Brilliant Uncirculated. Minor marks in the fields.

U.S. Quarter Dollars

212 1804 Fine-12. Exceptional centering. Low mintage date, yet not too highly priced. Compare mintages of 1796 and 1804. Nearly the same yet 1796 is many times more expensive.

213 1805 EF-45, choice. Struck from lightly clashed dies (not unusual). Perfect for a type set as the strike quality is far above average.

214 1822 AU-50. Cleaned and lightly tooled in the fields. Nicely toned, however.

215 1825/3 Overdate. AU-50.

216 1835 AU-55, choice. Nearly full lustre.

217 1855 Arrows. Especially sharply struck MS-63, Brilliant Uncirculated.

218 1855 Arrows. MS-63, Brilliant Uncirculated. Another attractive coin. Some of the denticles are lightly struck around the border, but this is often seen on 1855 coinage.

219 1861 MS-65, Brilliant Uncirculated. A lovely example of the no-motto design.

THE NUMISMATIC SPECTRUM

The knowledge of our large numismatic staff covers the entire spectrum of numismatics. Thinking of selling? Whether you are selling major United States rarities, pattern coins of French Indo-China, crowns of Africa, or any other speciality, there is a specialist on the Bowers and Ruddy Galleries staff to take care of all of the necessary research. We offer you a complete numismatic service.

- 220 1862 MS-63, Brilliant Uncirculated. Attractive.

- 221 1874 Arrows at date. Proof-60, brilliant. A pleasant coin to squirrel away for future appreciation.

- 222 1877-CC MS-65, Brilliant Uncirculated. Perfect for your type set. Not much rarer than its Philadelphia or San Francisco counterpart, but many times more romantic due to Carson City's "wild west" connotations!

- 223 1878-CC MS-63, Brilliant Uncirculated. A second choice Carson City quarter.

- 224 1880 MS-67, Brilliant Uncirculated. Definitely one of the finest known mint state 1880 quarter dollars. Very few business strikes were made. Of the few that remain today, most have some minor detractions. Not so this 1880. It is a gem of the first water and should command spirited bidding from eager collectors.

- 225 1884 Low mintage date both in Proof and as a business strike. Proof-65, brilliant. Deep mirror fields offsetting frosted devices.

MANY BIDDING OPPORTUNITIES

This sale offers you the opportunity to bid on many desirable coins. The more pieces you bid on, the greater are your chances for success. Check through the catalogue carefully. There are many really great bidding opportunities.

See Color Photo

- 226 1886 Proof-67, brilliant. A blazing jewel. Lowest overall mintage date in the rare 1879-1889 run.

Note: Mintages for quarter dollars and half dollars dropped dramatically beginning in 1879. The year before a law was passed condemning the mints to crank out countless Morgan dollars. Thus, with the mints spending all their available time on dollars, none was left for the smaller denominations. Quarter dollar mintages dropped precipitously. 1886 saw the nadir in quarter dollar coinage!

- 227 1898 Proof-65, brilliant. Beautiful!

- 228 1915 AU-55, choicer. Nearly 100% original mint lustre on this one.

- 229 1916 Barber. MS-63, Brilliant Uncirculated. Last year of issue for the Barber series. A popular coin because of this.

Note: Often collectors try to assemble type sets using first year of issue or last year of issue coins. The 1916 Barber quarter would, of course, fit into the latter assemblage. A type set so made would make a beautiful display item at coin shows (not to mention bring a good investment).

- 230 1917-D Type 1. MS-63, Brilliant Uncirculated. Full head.

- 231 1917-D Type 1. MS-63, Brilliant Uncirculated. Full head. (Would be MS-65 except for a small mark on Miss Liberty's breast.)

Note: The bare-bosomed Miss Liberty was probably the cause of the change of design in mid-1917. While the politics of the time gave "better balancing of the design" as a general reason, we numismatists of today know the real reason. So, today collectors have two types of Standing Liberty quarters. The 1916-1917 type one has performed exceptionally well over the years because of the short-lived design. We have several 1917s scattered throughout the sale. You might want to consider adding a nice one to your portfolio.

- 232 1917-S Type 1. MS-67, Brilliant Uncirculated. Full head. A stupendous coin! Worthy of the finest of the finest collection.

- 233 1921 MS-63, **Brilliant Uncirculated**. The only quarter dollar issue for 1921 — and scarce in its own right.
- 234 1924-D MS-63, **Brilliant Uncirculated**.
- 235 1926-D MS-63, **Brilliant Uncirculated**. Above average strike for this date.
- 236 1928 MS-65, **Brilliant Uncirculated**. Nearly full head.
- 237 1929 MS-63, **Brilliant Uncirculated**. Full head.
- 238 1929-S MS-63, **Brilliant Uncirculated**.
- 239 Group of Washington quarters. (1) 1934 MS-65, BU; (2) 1935 MS-63, BU; (3) 1935-S MS-63, BU; (4) 1936 MS-60, BU; (5) 1936 MS-65, BU; (6) 1936-S MS-65, BU. (Total: 6 pieces)

- 241 1937-S MS-65, **Brilliant Uncirculated**.
- 242 (1) 1938 MS-67, BU; (2) 1938-S MS-63, BU. (Total: 2 pieces)
- 243 1940-D MS-65, **Brilliant Uncirculated**.
- 244 1940-D MS-65, **Brilliant Uncirculated**.

U.S. Half Dollars

- 245 1795 Flowing hair half dollar. O-102, Rarity-5. A lovely VF-20 example of this popular type coin.

- 247 1824 MS-63, lovely blue-green toning. Sharply struck, too.
- 248 1827 MS-63, **Brilliant Uncirculated**. A second quality bust half dollar.
- 249 1832 Small letters. AU-50.
- 250 1832 Small letters. AU-50.
- 251 1837 Reeded edge. AU-50, whizzed. Exceptionally sharp strike for this usually weak design type.
- 252 1842 Medium date. EF-40.
- 253 1853 Arrows and rays. A one-year type coin. EF-45, choice. Perfect for inclusion in a type set.

- 254 1854 Arrows. AU-55, choice. Nearly full, original mint luster.
- 255 1858 MS-63, **Brilliant Uncirculated**. An attractive no-motto seated half dollar.
- 256 1858-O MS-60, **Brilliant Uncirculated**.
- 257 1860 EF-45, choice.
- 258 1871-CC VG-8 (or perhaps a bit better). This was Carson City's second year of coinage operations. Few coins survive from the early 70s issues.
- 259 1873 Arrows. AU-55, choice. Only the slightest hints of wear appear on Miss Liberty. Otherwise we could easily grade the coin a full MS-60.
- If you're a type collector, what better way to display the "with arrows" design than with this lovely coin. You'll pay just a fraction of the price of a full mint state coin and still have a very desirable piece.
- 260 1875-CC MS-63, **Brilliant Uncirculated**. As with all CC half dollars in mint state, 1875 is very underrated.
- 261 1876-CC AU-50. From our Scott Collection sale.

See Color Photo

- 262 1879 MS-65, **Brilliant Uncirculated**. Tiny mintage for 1879 — 5,900.
- Note: A few ambitious collectors and investors have tried to complete sets of the rare, mint state 1879-1890 seated halves. We've seen perhaps half a dozen of these lovely sets in a decade and can state unhesitatingly that the owners have always profited handsomely when it came time to sell.*
- 263 1881 MS-63, **Brilliant Uncirculated**. Semi-prooflike fields.

- 264 1901-O A much rarer Barber half dollar than ordinarily believed. The present coin grades MS-65, BU on the obverse. The reverse, a little flatly struck, we grade MS-63, BU. Overall an appealing coin.
- 265 1904 AU-50, lightly cleaned.
- 266 1906 AU-55, choice. A hair's breadth from full mint state.

U.S. Silver Dollars

- 334 1795 Flowing hair. B-1. Two leaves under each wing. VF-30, choice. Some adjustment marks. The 1795 flowing hair dollar is technically a one-year type coin. (1794 is out of the question for most collectors).
- 335 1795 Flowing hair. B-13. VF-30, choice. Another lovely bust dollar.
- 336 1798 Small eagle, 15 stars on obverse. Small reverse letters. VF-30, choice. Exceptionally nice fields. The 15 star obverse commands a premium from collectors who know how really difficult this coin is to locate. Bolender-2, rarity-5.

"Dear Mr. Korver:

"My experience as an auction customer of your firm over the last several years has been highly interesting and pleasant, and I look forward to continued active participation in your future sales. While expecting to remain mostly a buyer, rather than a seller, over the foreseeable future, I'm always confident that when an occasion to sell arises (as at present), I'll find your services as a consignor equally rewarding." — an unsolicited testimonial from P.E.C. of Denver, Colorado.

- 337 1799 B-8. EF-40. Sharply struck. A pleasing coin.
- 338 1799 B-10. VF-20.
- 339 1844 Seated dollar. MS-60, Uncirculated with lovely blue and gold toning. Mintage for 1844 was a diminutive 20,000.

Lovely 1851 Original Dollar

- 340 1851 Original. Date high in the field and close to the base of Liberty; entirely unlike the restrikes of this year. MS-65, Uncirculated with deep lilac toning. Prooflike surfaces. The quality sometimes described as "Proof."
- The 1851 original silver dollar is one of the rarest coins of that denomination. It is our estimate that fewer than 30 to 40 exist in all grades and that fewer than a dozen exist in full mint state. With the exception of the 1870-S, this is the rarest regular-issue American silver dollar. A very important opportunity.

U.S. Half Eagles

Classic 1806 Half Eagle

See Color Photo

- 469 1806 Round top 6 in date. MS-63, Brilliant Uncirculated. Stars aligned 7x6 on the obverse. Very well struck.

Note: Early half eagles such as this are seen less and less frequently on the auction block as years go by. Very few were originally made, and far, far fewer survived down to today. Investors and collectors "in the know" are salting away such classics as this 1806 for near-certain future appreciation.

"Dear Mr. Bowers:

"I would like to express my appreciation for the service and quality of merchandise your company has provided me.

"Although I only have been collecting a few years, the coins I've purchased from you represents the best combination of value and quality I've found.

"Special plaudits are due Mr. Robert Korver of the Auction Department. He has been extremely courteous and helpful, and his advice very instructive. My most recent acquisitions from the Fairfield auction were outstanding.

"Because of this satisfaction, I plan to consign material for some forthcoming auctions." — an unsolicited testimonial from R.L.C. of Okemos, Michigan.

U.S. Eagles

Rare, High Grade 1873-S Eagle

- 479 1873-S AU-55, choice. One of the very rare eagles! Most U.S. gold eagles struck in the 1860s and 1870s saw limited use. Mintages were small and most coins went into hiding (it was an era of abundant "greenback" paper money). To find an 1873-S in such high grade is an event. If you collect eagles by date and mint don't pass up this opportunity.

- 480 Flock of eagles. (1) 1881 AU-50; (2) 1882 MS-60, BU; (3) 1892 MS-60, BU; (4) 1894 AU-55, choice; (5) 1898-S Fine-12; (6) 1900 MS-60, BU; (7) 1901 AU-55, choice; (8-9) 1907 Liberty. Two pieces AU-55, choice. (Total: 9 pieces)

- 579 1880-CC MS-65, Brilliant Uncirculated. Prooflike.
- 580 1880-O MS-65, Brilliant Uncirculated. Prooflike. 1880-O is not often seen in nice MS-65, BU grade — let alone with prooflike fields also! Worthy of your generous bid.
- 581 1880-S MS-65, Brilliant Uncirculated. Prooflike.
- 582 Prooflike Morgans. (1) 1880-S MS-60, BU; (2) 1881-O MS-63, BU; (3) 1881-S MS-65, BU; (4) 1882 MS-63, BU; (5) 1882-O MS-60, BU. (Total: 5 pieces)

- 583 1881-CC MS-65, Brilliant Uncirculated. Prooflike.
- 584 1881-CC MS-65, Brilliant Uncirculated. Prooflike.
- 585 1881-O MS-65, Brilliant Uncirculated. Prooflike. An extraordinary coin! Full deep, deep mirror fields offset the completely frosted devices. Without the "O" mintmark, you'd think it was a Proof! A lot of money for the coin, but a lot of coin for the money.

Note: Most early New Orleans Morgan dollars (1879, 1880 and 1881 especially) more often than not come in "super slider" condition. It is believed the New Orleans Mint called in most of the "O" issues around 1883 or 1884. These were earlier dates pulled out of circulation. They were bagged and stored until the great Treasury dispersals of 1964. Thus most 1879-O, 1880-O and 1881-O Morgans seen today come from these bags of slightly circulated coins! - 600 Pair of prooflike Morgans. (1) 1883-CC MS-65, BU; (2) 1884-CC MS-65, BU. Both coins have particularly nice deep mirror fields offset by frosted devices — just like a Philadelphia Proof! (Total: 2 pieces)
- 601 Pair of prooflike Carson City dollars. (1) 1883-CC MS-65, BU; (2) 1884-CC MS-65, BU. A second exceptionally nice pair. (Total: 2 pieces)

- 604 1883-O MS-65, Brilliant Uncirculated. Prooflike.
Note: The significance of these prooflike Morgan dollars cannot be overemphasized! Many, many collectors desire mirror fields on their dollars. But there are not that many to go around. Certain dates, of course, often come with prooflike fields. However, most years luster predominates and prooflike coins are few and far between. If you've been wanting to add a desirable prooflike specimen to your dollar set, now is your chance.

- 606 1884 MS-65, Brilliant Uncirculated. Prooflike. Here is one of the "sleepers" in prooflike Morgans. Not rare as a date, but very underrated with prooflike fields.
- 607 1884 MS-65, Brilliant Uncirculated. Prooflike. Another of this desirable date.

U.S. Colonial Coins

Superb 1658 Lord Baltimore Sixpence

- 651 1658 Cecil, the second Lord Baltimore, sixpence. One of three silver denominations struck in England and circulated in Maryland by Cecil, the "Lord Proprietor of Maryland."

This specimen, a well-struck and very beautiful VF-30, choice example, is one of the finest pieces ever to appear on the numismatic market. It is superior to the *Guide Book* plate coin. An exceedingly important opportunity for the advanced collector of American colonial coins.

Note: From our Kensington Sale.

- 668 1783 Washington draped bust "cent," no button on toga. A deep, almost medallion, impression resembling in a way the restrikes of Baker-3 (to which refer), but from different dies with smaller and thinner letters. Either a special striking made with exquisite care (unlike the majority of B-2) or an unlisted early 19th century restrike. Plain edge. Sharply detailed AU-50 or better. Interesting and doubtless rare!

Note: From our Scott Sale.

Classic 1793 Half Cent

See Color Photo

- 676 1793 Half cent. First year of issue, and the only year of its design type. Cohen-3. Lovely **Extremely Fine-40**. Well struck and very sharply defined including the oft-weakly-struck reverse center. A few surface marks can be found here and there, but none are serious. Planchet is a rich dark brown color. The aspect of this 1793 half cent is very pleasing. A recommended buy for the advanced type set collector. A first-class 1793 half cent in every respect!

Note: From our Scott Sale.

- 677 1793 Half cent. A second example of this elusive one-year type. Reverse is Fine-12; obverse G-4. Dies were slightly rotated from normal alignment.

Lovely AU 1794 Half Cent

See Color Photo

- 678 1794 AU-50. An exquisite coin — so seldom seen above VF grades! The planchet is a pleasing milk-chocolate brown and there are far fewer than normal amount of surface marks and edge bruises.

- 679 1794 EF-40, dark. Reverse has a few marks. Overall the coin would fit nicely into a high-grade type collection.

- 680 1794 VF-20. Actually, grade a bit high wear-wise, but numerous planchet striae on the obverse and some edge roughness call for a conservative VF-20.

- 681 1794 Fine-12. Smooth and pleasing surfaces. A very attractive coin.

- 682 1794 Fine-12, granular.

Note: From the 1954 A.N.A. auction.

- 738 1879 Proof-65, lilac blue toning.

- 739 1880 Proof-67, brilliant. A jewel!
- 740 1880 MS-67, Brilliant Uncirculated. Decidedly scarcer as a business strike than a Proof.

- 741 1882 Proof-65, lilac and blue toning.
- 742 1883 Proof-65, lightly toned.
- 743 1883 Proof-65, brilliant.
- 744 1883 Proof-63, brilliant. Spotted.
- 745 1884 Proof-65, brilliant.
- 746 1885 Proof-63, brilliant. Frosty surface, similar to an Uncirculated specimen however probably struck as a Proof.

- 747 1886 Proof-65, brilliant. Another low-mintage issue.
- 748 1886 Proof-63, brilliant. Some unevenness in fields due to light planchet lamination under the surface.

SECOND SESSION

Tuesday Evening, June 6, 7:00 p.m. Sharp. Lots 753 to 1565

U.S. Silver Three-Cent Pieces

- 753 Quintet of circulated three cent silvers. (1) 1853 VF-20; (2) 1857 Good-4; (3) 1858 VF-20; (4-5) 1861 Two pieces VF-30, choice. (Total: 5 pieces)

- 754 1861 Proof-60, deep blue gray toning.

- 755 1862/1 Overdate. A lovely MS-67, brilliant specimen. Exceptional quality for this interesting coin.

- 756 1862 Proof-60, lightly toned.

- 757 1871 Proof-67, with superb iridescent toning. One of the very rare, low-mintage silver three cent pieces of the early 'seventies.

Note: The period encompassing the 1860s and first half of the 1870s was a time of small change shortage in America. Due to the hoarding of coins during the Civil War, small denomination coins all but disappeared. The U.S. government could do nothing about this until the vast quantities of paper money were withdrawn. Therefore, mintages of coins such as the three cent pieces dropped off. A few Proofs were struck and a token quantity of business strikes – and that is all! This 1871 will make a delightful addition to someone's collection.

- 762 1878 Proof-63, brilliant. Low-mintage Proof-only date. Always in great demand.

- 763 1879 Proof-63, lightly toned.

- 764 1880 Proof-67, brilliant. A beautiful example of this scarce shield nickel.

- 765 1881 Proof-63, brilliant. Trivial flyspecks.

- 766 1882 Proof-65, brilliant.

- 767 1883 Liberty. No "CENTS." MS-63, Brilliant Uncirculated (small toned area on reverse).

- 768 1883 No CENTS. AU-55, choice.

- 769 1884 Proof-65, toning a light lilac blue color.

- 770 1885 Proof-65, with a hint of lilac-blue toning. Exceptionally nice!

Note: Many of the Liberty nickels (as well as some of the nickel three cent pieces) – especially the lilac or blue toned ones – came from an old-time collection. They have never been dipped, cleaned or fussed with. True, original coins!

- 771 1885 Proof-65, with lovely lilac-blue toning. A second superb Liberty nickel. Here is a perfect opportunity to add a scarce 1885 to your portfolio.

- 772 1885 Proof-60, brilliant. Small spot.

U.S. Nickel Five-Cent Pieces

- 758 1866 Rays. EF-40.

- 759 Hodgepodge of five cent pieces. (1) 1866 Rays. VF-20, porous reverse; (2) 1882 VF-20; (3) 1883 Liberty. No "Cents." AU-55, choice (lightly cleaned); (4) 1883 No "Cents." EF-45, choice. (Lightly cleaned); (5) 1899 AU-50; (6) 1937-D MS-60, BU; (7) 1938 MS-63, BU; (8) 1938-D Buff. MS-60, BU; (9) 1938-D Buff. MS-60, BU carbon spots; (10) 1938-D Buff. AU-50, cleaned; (11) 1939 MS-60, BU. (Total: 11 pieces)

- 760 1868 AU-55, choice.

- 761 1870 EF-40.

- 773 1886 Proof-65, light pink toning. Desirable date, too.

- 774 1886 Proof-63, lilac-blue toning.

- 775 1887 Proof-65, brilliant. Exceptional strike.

Note: Over our many years of coin dealings, we've seen countless 1887 Proof coins of all denominations. It never ceases to amaze the cataloger how really poor quality the strike detail is on Proof 1887 coinage. Flat stars, weak wreaths, flatness on Liberty's head (seated coins) are the RULE not the exception. So when a fully struck nickel such as this comes along we feel it important to tell you about its rarity in this grade.

- 776 1887 Proof-63, brilliant.

- 777 1889 MS-65, Brilliant Uncirculated. Hint of golden toning.

- 778 1909 Proof-65, brilliant.

- 779 1912-D AU-50.

(Total: 10 pieces)

- 781 Group of 1913 type one buffalo nickels. One AU-55, choice and three AU-50s. (Total: 4 pieces)

- 782 Small herd: (1) 1927; (2) 1929; (3) 1937-S; (4-5) 1938-D Buff. Two pieces. All grade MS-63, Brilliant Uncirculated. (Total: 5 pieces)

- 783 1931-S MS-63, Brilliant Uncirculated.

- 784 1936 Proof-67, brilliant. Type one format – frosted appearance.

Note: 1936 Proof cents and nickels come with two surfaces – type one (above) has a decidedly frosty appearance. The striking quality is, of course, excellent. Type two is the full mirror field as found on earlier and later American Proof coins.

- 785 Seven buffaloes corralled in one lot: (1-5) 1937 Five pieces MS-65, BU; (6-7) 1938-D Two pieces MS-65, BU. (Total: 7 pieces)

- 791 Wartime nickel collection. Identical to the last except a few of the

pieces grade MS-63, BU and the rest MS-65, BU. Housed in plastic holder. (Total: 11 pieces)

- 792 Run of Proof Jeffersons – 1950 through 1968-S. All grade Proof-65, brilliant. (Total: 16 pieces)

- 793 1950-D Three pieces MS-63, BU. (Total: 3 pieces)

U.S. Half Dimes

- 794 1803 Fair-2 would be a generous term. A mangled specimen which, surprisingly, shows a full date. No reverse to speak of. Use for "fuller" purposes until you can trade up to a nicer piece.

- 795 (1) 1829 EF-45, choice; (2) 1873-S AU-55, choice. (Total: 2 pieces)

U.S. Dimes

High Quality 1805 Dime

See Color Photo

- 802 1805 MS-65, Brilliant Uncirculated. Hint of golden toning. Exceptionally strong strike (unusual for heraldic eagle dimes). A few tiny planchet marks do not measurably detract. Definitely one of the finest known examples of this date as well as the type!

- 803 1823/2 Overdate. EF-45, choice. Attractive toning.

- 804 1828 Small date. Scarce. EF-45, choice.

- 810 1862 Proof-60, brilliant. Some light handling marks.

812 1888 AU-50.

813 (1) 1890 Fine-12; (2) 1902 AU-55, choice. (Total: 2 pieces)

U.S. Twenty-Cent Pieces

828 1875 MS-60, Brilliant Uncirculated. Semi-prooflike fields as often seen on 1875 Philadelphia. Small mark on obverse, but otherwise of high quality. Low mintage date (much scarcer than 1875-S) yet not really priced higher. A lot of coin for the money.

829 1876 EF-40, cleaned.

Exceptional 1882 Quarter Dollar

857 1882 MS-67, Brilliant Uncirculated. A satin-lustre gem! Nothing more need be added for this coin speaks for itself.

858 1882 AU-50, cleaned.

859 1888 Proof-63, brilliant.

860 1891-O Key date. Obverse Good-4 (strong date); reverse AG-3.

863 1896 Proof-67, brilliant. Another exceptional Barber quarter.

864 1904 MS-69, Brilliant Uncirculated. A blazer! Someone must have been standing ready to catch this one as it came off the coining press – it's superb!

865 1909 MS-65, Brilliant Uncirculated. A very desirable coin to "put away" for the future.

866 1910 MS-63, Brilliant Uncirculated. Very lightly cleaned, but this is hardly noticeable.

867 1916-D Barber. MS-65, Brilliant Uncirculated.

Low Mintage 1916 Standing Liberty Quarter

868 1916 Standing Liberty quarter. MS-60, Brilliant Uncirculated. A few minor hairlines on the reverse from an injudicious dipping in the past, but overall the coin ranks right up there in desirability.

Only 52,000 1916 quarters were struck having the newly adopted standing Liberty figure by A. Weinman. Unlike other first-year type coins, for some reason 1916 was not saved out in large numbers. Fully mint state 1916s are few and far between – and always receive deserved attention.

869 1917 Type 1. MS-67, Brilliant Uncirculated. Full head. Satiny lustre characteristic of 1917-dated U.S. coins. You'd have to hunt many years to find the equal to this one!

- 870 1917 Type 1. MS-67, Brilliant Uncirculated. Full head. And here it is! (Look at the next lot, too!). Seriously, superb quality 1917 quarters are in tremendous demand from wise, quality conscious numismatists. Here's your chance to buy one. Don't miss the opportunity.

- 871 1917 Type 1. MS-67, Brilliant Uncirculated. Full head.
- 872 1917 Type 1. MS-65, Brilliant Uncirculated. Full head. Almost as nice as the previous three. Will make a fine addition to any rare coin portfolio.
- 873 1917 Type 1. MS-63, Brilliant Uncirculated. Full head. Not as expensive, but still quite attractive.
- 874 1917 Type 1. MS-60, Brilliant Uncirculated. Full head.
- 875 1917 Type 1. AU-50, full head. A few edge nicks — none important.

Note: A very nice gentleman consigned his collection of Standing Liberty quarters to our sale. His main collection plus his duplicates gave him many proud hours of enjoyment. Most of the pieces were obtained in the 1940s and 1950s. Few have been fussed with or cleaned, so you are assured of quality coins. Check this section over closely, for you may well find something you've always wanted.

- 876 1917-D Type 1. MS-63, Brilliant Uncirculated. Full head.
- 877 1917-S Type 1. AU-55, choice. Full head. A beautiful coin for someone who doesn't desire an Uncirculated example but still wants a pleasing specimen.
- 878 1917-S Type 1. AU-55, choice. Another.
- 879 1917 Type 2. MS-67, Brilliant Uncirculated. About 80% full head detail.
- 880 1917 Type 2. MS-63, Brilliant Uncirculated. 95% full head (we're being conservative, most would easily call this "full head").
- 881 1917 Type 2. AU-55, choice.
- 882 1917 Type 2. AU-55, choice.
- 883 1917-D Type 2. AU-55, choice.

- 885 1918 MS-60, Brilliant Uncirculated.
- 886 1918-D MS-60, Brilliant Uncirculated, lightly cleaned.

- 887 1918-D MS-60, Brilliant Uncirculated. Full head. (Scarce date with full head).
- 888 1918-D AU-55, choice.
- 889 1918-S AU-55, choice.
- 890 1919 MS-63, Brilliant Uncirculated.
- 891 1920 MS-65, Brilliant Uncirculated. Full head.
- 892 1920 MS-63, Brilliant Uncirculated.
- 893 1920 AU-50.

- 894 1921 MS-65, Brilliant Uncirculated. A few minor toning streaks on the reverse.

Note: The standing Liberty quarter dollars have always been one of our favorites. They were designed for a different era than ours. At their issuance in 1916, times were tense, the world engulfed in war. The design incorporated in the quarter aptly depicts the mood of early-20th century America. Miss Liberty stands ready with shield up for protection — to let other nations know America will defend her beliefs. Yet in Liberty's other hand she extends the olive branch of peace — so characteristic of enlightened nations' desires to end useless bloodshed.

When you compare the attractive designs of turn-of-the-century American coins to the caricatures in metal used today, you might yearn for the times when men were able to express their thoughts in a more visible form. Standing Liberty quarters were issued during these golden years of an advancing America. Depression and the socialist upheaval of the 1930s brought an early end to the beautiful standing Liberty quarter series.

- 898 1923-S MS-60, BU. Rare date in excellent condition.
- 899 1924 MS-65, Brilliant Uncirculated. Full head.
- 900 1924-D MS-65, Brilliant Uncirculated. 90% full head. Well struck (1924-D is notorious for its weak strikes).

Beautiful 1830 Bust Half Dollar

933 1830 MS-67 Brilliant Uncirculated. O-106. Exceptional quality!

Note: From our Getty sale where it was described as being the finest known of its variety.

934 Pair of 1834 bust halves. (1) EF-40; (2) EF-40, whizzed. (Total: 2 pieces)

935 1836 Reeded edge. FIFTY CENTS on reverse. Comparable to the 1856 flying eagle cent in its importance as well as low mintage. About 1200 1836 reeded edge halves were struck. Although the coin is technically a pattern, the relatively high mintage (for a pattern, that is) seems to denote otherwise.

Collectors have always marveled at 1836 reeded edge halves. Here is a pleasing VF-30, choice example — open for your bidding.

936 1839-O Bust half dollar. The only collectible mint marked half dollar of this design type and quite scarce in addition. EF-40, pleasing natural surfaces.

937 1843-O MS-60, Brilliant Uncirculated. Excellent strike.

- 947 1882 Proof-60, cleaned and with numerous resultant hairlines.

- 948 1882 MS-65, **Brilliant Uncirculated**. Prooflike. A beautiful example of this elusive seated half dollar. Bid generously — it'll be well worth it.

- 949 1887 Proof-60, cleaned.

- 952 1901 Proof-65, **brilliant**.
- Note: Of the 813 Proof Barber half dollars struck this year, we doubt that as many as 75 or 100 are as nice today. Most Proofs saw some mishandling or misguided cleaning. The present coin is quite as lovely as the day it was struck.*

- 976 1878 Morgan. 8 tail feathers. MS-67. Choice Brilliant Uncirculated.

Note: Research on the part of the staff of Numismatic News has disclosed that the first 1878 silver dollars were minted on March 11, 1878 (instead of March 12 as previously supposed). So, March 11, 1878 marked the hundredth anniversary of this event. March 11, 1878 also marked an important event in the life of one of the cataloguers of this volume, Dave Bowers was married that afternoon to Christine Valentine.

- 977 Pair of dollars: (1) 1878 8TF. MS-67. Choice BU; (2) 1878 7/8TF. MS-65. Choice BU. (Total: 2 pieces)

Note: When the first Morgan dollars were minted it was noted that the bird on the reverse possessed eight tail feathers. This resulted in there being no single, middle, or longer feather, something that an ornithologically-oriented observer pointed out. This matter, seemingly quite trivial then and now, was rectified by overpunching the working dies, and there were several dozen of them, with a new hub with seven tail feathers.

"Dear Mr. Korver,

"Thank you for the check which I received from the sale of my three Proof twenty-cent pieces. I am pleased with the results and most of all it is pleasing to find someone who does what he says he will do and keeps to such a complete and accurate time schedule.

"I was most pleased with the catalogue pictures and descriptions of my coins and it is easy to see why you have the reputation that you do."—an unsolicited testimonial from R.R.H. of Riverton, New Jersey.

U.S. Currency

This small but interesting section includes such diverse items as rare National Gold Bank Notes, a pleasing run of Gem small size paper money, Fractional specimen notes and Spinner memorabilia.

The regular-issue U.S. paper money is attributed to Robert Friedberg's "Paper Money of the United States" eighth edition. Notes are listed in Friedberg sequence, rather than by denomination. Price estimates, where given, are our best approximations of what we feel the notes will bring. Higher or lower prices may prevail, but past auction records are a useful guidepost.

Large Size Notes (1861 to 1928)

- 1464 F-16 \$1 Legal Tender, 1862. Popular first \$1 greenback type note. Very Fine. (\$70-\$100)
- 1465 F-20 \$1 Legal Tender, 1875. Choice Crisp New. A bright appearing design having an ornate scrollwork at right. Nearly as nice as the day it left the presses. (\$200-\$230)
- 1466 F-36 \$1 Legal Tender, 1917. Choice Crisp New. A most popular inexpensive type, note. Even if you don't wish to collect paper money extensively, you might still consider adding F-36 to your holdings. (\$50-\$65)
- 1467 F-223 \$1 Silver Certificate, 1891. Martha Washington portrait on obverse. Very Fine. (\$70-\$100)
- 1468 F-224 \$1 Silver Certificate, 1896. Detailed "Educational series" \$1 bill. Very Fine. No impairments and showing the beautiful workmanship to its fullest. (At a fraction of the price of a "New" note). (\$80-\$100)

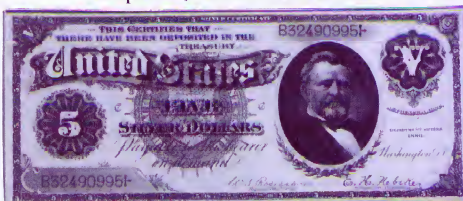

- 1469 F-248 \$2 Silver Certificate, 1896. The Educational note. Crisp New but with several small pinholes at top center. Nonetheless a highly desired type note. Allegorical figures represent "Science Presenting Steam and Electricity to Manufacture and Commerce." (\$600-\$800)

Note: An awakening industrialized America is aptly depicted on the "Educational series" notes. This \$2 bill shows us that steam and electricity were the main motive powers operating the factories of late-19th century America. With the beginning of the 20th century, improvements in the internal combustion engine, as well as the improvements in diesel technology, quickly replaced steam power as a motive force.

- 1470 F-262 \$5 Silver Certificate, 1886. Large red seal. The famous silver dollar back \$5 note. A show-stopper in anyone's collection. Extremely Fine. (\$500-\$600)

Exceptional \$5 Silver Dollar Back Note

- 1471 F-264 \$5 Silver Certificate, 1886. Large brown seal. Silver Dollar reverse — a grand format for an American note! Choice Crisp New and fully worth its estimate. (\$2000-\$2500)

- 1472 F-270 \$5 Silver Certificate, 1896. Educational note. Fine. Not overly soiled as sometimes found in this grade. A pleasing, inexpensive note. (\$300-\$375)
- 1473 F-482 \$10 National Bank Note, 1882. Second charter, brown back. The Pasadena National Bank of Pasadena, California. Charter number 3568. Scarce. Fine (heavy folds) with three torn corners. Should attract some attention. (\$100+)

Very Rare \$5 Santa Barbara Gold Note

- 1474 F-1139 \$5 National Gold Bank Note. 1873. The First National Gold Bank of Santa Barbara, California. Charter number 2104.

As a type, gold bank notes are ever popular (though not particularly rare). However, Santa Barbara notes are rare. Only 2,000 \$5 notes were printed and issued. How many can have survived until today? The present note grades Good. Edges are complete and there are no bad impairments – only honest wear. Estimating a Santa Barbara gold note is not easy. Perhaps \$1000+.

Note: Out West in the late 19th century, paper money was considered as worse than useless. Westerners had probably learned their lessons from earlier "wild cat" banks that issued quantities of paper and promptly went bust. Thus they accepted hard money – gold and silver. The National Banking acts forbade this and allowed western banks to issue National Gold Bank Notes – notes backed by gold deposits. These were acceptable to the hard-money populace and circulated well. Today they are most often seen in Good condition or even "rags."

Second Rare Santa Barbara \$5 Gold Note

- 1475 F-1139 \$5 National Gold Bank Note. 1873 A second rare Santa Barbara issue. If you missed the previous note, you might want to "stretch" a bit further and bid on this one. Good

condition, as last and worth an equal amount.

- 1476 F-1173 \$10 Gold Certificate. (Not to be confused with the previous two National Gold Bank Notes). 1922. AU. (\$60-\$80)
1477 F-1178 \$20 Gold Certificate. 1882. EF-AU. (\$230-\$280)
1478 F-1178 \$20 Gold Certificate. 1922. Very Fine. (\$80-\$100)

THE BEST PRICE FOR YOUR COINS!

When Armand Champa, one of America's leading numismatists, decided to sell his collection he solicited cash offers from leading dealers all over America. Dissatisfied with the bids received and with the great time and effort expended to show his collection to many different people, he then consigned his magnificent collection to us for auction.

The Armand Champa Collection sale took place—and attracted international attention. When the sale was over, Mr. Champa told us that his coins sold in our sale for NEARLY DOUBLE the highest cash offer he received earlier! So appreciative was he, that he did something completely unprecedented in the annals of numismatics: completely unsolicited by us, Armand Champa placed large advertisements in "The Numismatist," "Coin World," and "Numismatic News" to thank us for the great job we did for him!

Thinking of selling? Do as Mr. Champa did: consign your coins to Bowers and Ruddy Galleries. It's the ideal way to sell.

THE EXPERIENCE OF MR. MATT ROTHERT —Past President of the A.N.A.—

When Mr. Matt Rothert, distinguished past president of the American Numismatic Association (and recipient of nearly all the important numismatic awards that can be bestowed on an individual), decided to sell his collection he compared the style, presentation, commission rates, advantages, and prices realized of leading auction houses. He chose Bowers and Ruddy Galleries, Inc. We catalogued his coins and sold them at an event that was a numismatic landmark. Following the sale, Mr. Rothert wrote to us and expressed his great satisfaction with the way we handled the sale. In fact, he was so pleased that he subsequently sent us several additional consignments for further sales!

Thinking of selling? Do as Mr. Rothert did: consign your coins to us. It's the ideal way to sell!

Condor Tokens

As we are offering so many of these fascinating issues, a brief statement regarding their origin is in order. The excellent definition quoted below is from the "Dictionary of Numismatic Names" by Albert F. Frey, published jointly by Spink & Son and the Organization of International Numismatists (COIN):

"Tokens, or Pledges of Value, as they were sometimes called, appeared early in the fifteenth century, and Queen Elizabeth permitted municipal tokens to be struck by the cities of Bristol, Oxford, and Worcester. Erasmus mentions the 'plumbet Angliae,' evidently referring to the leaden tokens issued in the time of Henry VII.

"There were three periods in English history when a large number of tokens were put into circulation, owing to the inadequacy of the royal coinage. The first of these was from about 1601 until prohibited by a royal proclamation dated August 16, 1672, when a royal issue of copper half Pennies and Farthings was made. From 1787 to 1802 the copper

coinage was again insufficient and a large quantity of tokens appeared. This series was originally described and numbered by the Rev. James Conder, and collectors consequently refer to them as the Conder Tokens. In 1811 a third and last series of English tokens appeared, and these continued until 1817 when an Act was passed which prohibited their manufacture and use, and persons who had issued any were obliged to redeem them by the end of the year."

The Outstanding Frank Nersita Collection of Japanese Pattern Coins

Before commenting on the fabulous group of 15 rarities that follows, a few words about their present owner and consignor, Mr. Frank Nersita, are in order.

Mr. Nersita, 33, married and the father of two children is vice president and general manager of a New Jersey construction company. He became a coin collector at age 12, and as do most of us here in the United States, began with U.S. coins. While on a tour of duty with the U.S. Army, tragedy befell his American coin collection—a younger sister used it for candy money! Because of this unfortunate event, Mr. Nersita began collecting coins of the world, and thus was formed this amazing collection of Japanese patterns among other specialized collections. He continues to enjoy and collect world coins, one of his favorite areas being pre-1800 European coinage, especially German and Austrian coins in choice condition.

Regarding the Japanese patterns, most dealers, advanced general collectors and specialists in Japanese coinage will immediately recognize the great rarity of this material. No one has said it better than Dr. Norman Jacobs and Dr. Cornelius C. Vermule III in their book *Japanese Coinage* published by Stacks, New York in 1972. With the kind permission of Dr. Jacobs and Stacks, a part of the section on patterns is reprinted below.

"Patterns and Trial Pieces"

"Because the adoption of a coinage similar to that of most of the so-called Western nations was not a gradual evolution but a sudden innovation in the brief period following the Meiji Restoration (1868), an exceptional number of interesting trial and pattern pieces were produced at this time as examples of Japan's efforts to seek a coinage suited to its every need. The custom was continued with every change of design, size, or issue up to the present date and in many cases at times when no change in issue was contemplated.

"The earlier series include the trial pieces made at Birmingham, England to show the Japanese government officials what to expect of a European-style monetary system, hand-cut engravings of the projected issues for 1869 and 1870 (Meiji 2 and 3), and the famous series of one yen and trade dollar patterns most of which are in the Bank of Japan collection in Tokyo. The more recent patterns, not so widely publicized because of strict mint controls, include the government's Osaka Imperial Mint collection, a large portion of which, containing many rare and unique pieces, was unfortunately melted down under U.S. Army supervision at the Branch Mint in Tokyo in the spring of 1946. A beautiful series of patterns also exists for the Korean series.

"It is well to state at this point that most of these patterns are excessively rare and command fabulous prices in Japan because of their popularity."

As to prices, the infrequent appearance of Japanese patterns in the marketplace makes estimating their present value very difficult.

The great Eduard Kann Collection sold at public auction in June 1971 by Schulman Coin & Mint & Quality Sales Corporation contained seven Japanese patterns (not including four of the occupied Netherlands East Indies). The average price realized on these was over \$2000.00. At this time Japanese coinage had just begun to reach the heights of popularity and price levels that it presently enjoys, and it is safe to assume that much higher prices would be realized on the same coins if they were sold today. The only real catalog values that we can use on these items are found in the JNDA catalog published in Japan. Though none of the coins presently being sold are listed in that catalog, last published in 1977, a few coins similar in design and period have approximate valuations of between \$2000 to \$8000 and no patterns after 1921, a period of strict mint controls, are even listed. In the above quoted Kann sale a Taisho 4 (1915) pattern 1 Yen with the portrait of the Taisho Emperor realized \$4400.00 and the coin here represented as Lot 3138, is to our knowledge, the only other Japanese coin, pattern or otherwise, to use an individual in the design. With the information we have at hand, we expect each coin to realize a strong four-figure price.

After consulting with Dr. Norman Jacobs, co-author of *Japanese Coinage*, during the cataloging process, we received the following letter:

April 3, 1978

"Dear Mr. Draskovic,

"I am pleased to learn that Bowers and Ruddy Galleries soon will be offering an extremely rare, perhaps unique array of Japanese patterns. This indeed presents an unusual opportunity for the connoisseurs to add gems to their collections.

"I look forward to the justified excitement that this sale will engender in the Japanese numismatic fraternity.

Sincerely yours,

Norman Jacobs"

We look forward to this excitement as well-and so, we present now for your collecting pleasure, the **Frank Nersita Collection of Japanese Pattern Coins**.

- 3131 Undated (1901) Pattern 10 Sen in copper. Value in English. Rev: value in Japanese. Weight: 1.72 grams, diameter: 17.5mm. Red-brown AU.

- 3136 Taisho 12 (1923) Pattern 50 Sen in tin. Weight: 4.02 grams, diameter: 23.3mm. Reeded edge. Except for the metal, this is the same as the issued coin and most likely a trial for a coin in base metal. Stamped "sample" in Japanese by two characters flanking denomination and counterstamp "25" at 8 o'clock on reverse near the rim. VF-EF overall.

Note: The numerals counterstamped on this coin and on lots 3137 and 3138 were control numbers used by mint personnel to discern differences in alloys on patterns and trial strikes.

- 3132 Undated (1901) Pattern 20 Sen in copper. The same as above but for denomination and size. Weight: 3.45 grams, diameter: 20.3mm. Red-brown AU.

See Color Photo

- 3133 Undated (1901) Pattern 50 Sen in copper. Same basic type but for the larger size. Weight: 8.4 grams, diameter: 26.8mm. Red-brown AU.

- 3134 Undated (1901) Pattern 1 Yen in copper. The final and largest value in this series; design as previous three coins except for denomination and size. Weight: 15.15 grams, diameter: 33.8mm. Red-brown AU.

See Color Photo

- 3135 Meiji 34 (1901) Pattern 1 Yen in copper. As J&V-Q51 and JNDA-20 but without wreath and chrysanthemum. Weight: 15.51 grams, diameter: 33.8mm. The 1977 edition of the JNDA catalog lists the variety with wreath and flower at 2,500,000 Yen (approximately \$10,000) in Uncirculated condition. This specimen is red and brown AU.

- 3137 Taisho 12 (1923) Pattern 50 Sen in tin. Similar to the previous coin in all respects except that this coin is stamped "26" and weighs a bit more at 4.07 grams. VF/EF, a somewhat mushy obverse strike.

See Color Photo

- 3138 Taisho 15 (1926) Pattern 50 Sen in tin. Weight: 3.63 grams, diameter: 23.5mm. Legend, value and date over flowers. Rev: facing bust of Takauji with "23" counterstamp to the left, the effigy of Takauji being almost identical to that on the paper 1 yen notes of 1889 and 1916 (Pick 27 and 30). VF-EF. An extremely rare example of an individual being portrayed on a Japanese coin.

Note: Takauji (1305-58) of the Minamoto family, was the founder of the Ashikaga shogunate. Serving alternately the Hojo regents and northern and southern dynastic emperors, he became sole ruler of Japan in 1338.

See Color Photo

- 3139 Showa 2 (1927) Pattern 50 Sen in silver. Obverse with a branch and year of Showa era. Rev: as previous Taisho and subsequent Showa issues, but with "sample" counterstamp flanking the value (two Japanese characters). On the edge are six tiny flowers of six petals and the number in western numerals "2587." Weight: 6.73 grams, diameter: 23.6mm. No regular issue 50 Sen coins dated 1927 (year 2) exist for the Showa emperor. AU, the fields somewhat prooflike.

- 3140 Showa 2 (1927) A second pattern 50 Sen in silver. This coin is the twin of the previous specimen in design, weight and grade but not quite as prooflike.

- 3141 Showa 2 (1927) Pattern 50 Sen in brass. Except for metal and weight of 5.47 grams, this coin is identical to the previous pattern. AU.

- 3142 Showa 2 (1927) Pattern 50 Sen in brass. Obverse and reverse design as above, on a slightly thicker flan with a wider border. Weight: 6.37 grams, diameter: 23.9mm. On the edge are now 16 flowers and the number "2587" in smaller western numerals. AU.

See Color Photo

- 3143 Showa 2 (1927) Pattern 50 Sen in silver. Obverse with blank flower shape outline and legend around. The reverse is as the regular issue begun in 1928 with "sample" flanking the value. Edge variety with 16 flowers and small "2587." Weight: 7.09 grams, diameter: 23.9mm. AU.

- 3144 Showa 2 (1927) Pattern 50 Sen in brass. Same as above but for metal. Weight: 6.22 grams, diameter: 24mm. AU.

- 3145 Showa 3 (1928) Pattern 50 Sen in tin. Weight: 3.94 grams, diameter: 23.5mm. Same as the regular issue except for metal and the number "24" stamped in the upper left field on reverse. Abt. EF.

Note: The Order of Queen Tamara was an ephemeral order, established in 1915 by the Georgian Legion as an award to those aiding in the independence of Georgia from Russia. Robert Werlich in his book Orders and Decorations of all Nations states that most examples of the order are not original and as this and the following specimen are not hallmarked, it should be assumed that both are of later manufacture, a common aspect of many orders and decorations.
